

Oakland Unified School District  
**English/ Language Arts Course Syllabus**  
**For Secondary Schools**

The attached course syllabus is a developmental and integrated approach to skill acquisition throughout the secondary schools of the Oakland Unified School District. In direct alignment with the California State Framework for English/Language Arts, this set of skills provides students with the basic foundation needed for English Language development 9-12. The outline of the attached material represents the **minimum requirements** for accountability at each of the high school grade levels.

The content for each course must be addressed in a coherent fashion, and the instructional materials should thoughtfully and logically address the development of skills and knowledge that build throughout the four levels. Teachers may review their existing course content to ensure that these minimum requirements are met.

Principals may use this material as a framework for observation of course content within each classroom. The methods and strategies used to implement this content should be informed by the most appropriate and applicable methodology. These strategies should include linguistically relevant, culturally affirming, and historically accurate contextual design.

All of the content found within these pages is to be viewed by students, educators, and parents as alive and dynamic, thus allowing for differentiated instructional methods to address both teacher and student characteristics.

N.B. The italicized words in each section represent the previous grade level minimum requirements that are spiraled into the following grade to ensure continuing attention to helping students achieve mastery.
