# Posting Your Child's Work on the Web

If you have any objections to your child's art work, written work or photo being published on the OUSD Web Site, please sign and return this flyer to your child's school.

I understand that my child's full name will not be used (only first names, last initials will be used to identify authorship) and that there will be no direct contact information provided to viewers of the web page. Signing this agreement does not constitute relinquishment of copyright. Every effort will be made to return work in its original condition but the district assumes no liability for damage or missing work.

Thank you.

I do not wish any art work, written work, photo or video created by my child to appear on web pages created for the Oakland Unified School District's web page.
